

# Inflation Device

- Stable performance with ergonomic design
- Accurate inflation of interventional devices with pressure control
- 30cm high pressure extension tubing with male rotating luer assure pressure maintenance during inflation
- 3-way stopcock up to 500psi
- Volume:20ml

Ref.No.	Product Description	Model
AI30	20 ml ,no leakage under 30atm	KDL-IN30
AI40	20 ml ,no leakage under 40atm	KDL-IN40

## Inflation Device

- Accurate and easy pressure control with ergonomically designed handle
- Inflate speed 50% faster compared to previous version
- 30cm high pressure extension tubing with male rotating luer assure pressure maintenance during inflation
- 3-way stopcock up to 500psi
- Volume:20ml

Ref.No.	Product Description	Model
AI25	20 ml ,no leakage under 30atm	KDL-IN25
