

AltoSa[®]-XL PTA Balloon Catheter

large in size, small in profile, zero in shoulder

AltoSa®-XL PTA Balloon Catheter

- Large in size - low in profile design allowing smaller introducer sheath compatibility.
- Radiopaque marker bands provide increased visibility and accurate positioning.
- Zero-shoulder technology design to optimize selective vessel wall dilatation.
- Advanced Nylon balloon material offering high-pressure, non-compliant and puncture resistant balloon performance.
- Fast inflation/deflation time.

Technical Information

Balloon Material	Advanced Nylon - 4 to 6 Folds
Balloon Marker Bands	Platinum Iridium (PtIr 90/10%)
Balloon Compliance	Non-compliant
Balloon Profile / Wrapping	Refolding Technology
Nominal Pressure (NP)	8 / 6 / 4 / 3 bar
Rated Burst Pressure (RBP)	10 / 9 / 8 / 6 / 5 / 4 bar
Shaft Length	110 cm
Recommended Guide Wire	0.035" (0.89 mm)
Recommended Sheath Introducer	Ranging 7F - 12F

Order Codes

A choice of various diameters and lengths.
