ordering info

**Teleflex™**

Empowering the future of healthcare

# Fortress™

## Reinforced Introducer Sheath System

Introducer sheath system with excellent kink resistance,  
easy insertion and superb radiopacity.

# Fortress™ Introducer Sheath

Introducer sheath system with excellent kink resistance, easy insertion and superb radiopacity.

## Excellent kink and deformation resistance

### Coil reinforced sheath

The polymer embedded stainless steel coil shaft provides flexibility and excellent kink and deformation resistance.

### PTFE liner

The non-ovaling characteristic combined with its friction lowering PTFE liner enables devices to easily pass through tight anatomical curves.

*Cross section curved sheath*

*Curved sheath*

**Fortress™ introducer sheath's coil-reinforced sheath **does not oval** when curved, maintaining lumen diameter.**

**Standard competitor's non-reinforced sheath **ovals** when curved, thereby reducing the lumen diameter.**

## Easy insertion

### Smooth tapered sheath and dilator tip

The sheath and dilator have a smooth tapered tip and an atraumatic tip design for ease of insertion.

### Hydrophobic coated sheath<sup>1</sup>

Best in class insertion performance<sup>2</sup> due to the hydrophobic sheath coating in combination with the smooth tapered sheath and dilator tip.

## Superb radiopacity

### Radiopaque sheath marker

The platinum alloy marker band provides superb tip radiopacity under fluoroscopic imaging.<sup>2</sup>

*Fortress™ 4F introducer sheath in the pelvic area*

## Minimal is optimal

The 4F Solutions product portfolio allows for treatment of complex lower limb disease while reducing access site complications.

4F

# Fortress™ Introducer Sheath

Indicated to provide access into the femoral, popliteal and infrapopliteal arteries.\*

## Technical data

INTRODUCER SHEATH	
French size	4F, 5F, 6F, 7F and 8F
Length	45, 65 and 90 cm
Sheath material	Stainless steel coil reinforced polymer, PTFE liner
Sheath tip	Smooth taper with radiopaque marker band located 3-5 mm from the sheath tip
Sheath shape	Pre-curved 45 cm Straight 45, 65 and 90 cm
Sheath coating	Hydrophobic, distal 30 cm (5F, 6F, 7F and 8F only)

DILATOR	
Recommended guide wire	0.035"
Tip	Smooth taper with radiopaque filler material
Shape	Pre-curved and straight
Hub	4 F: fixed hemostatic valve 5 F, 6 F, 7 F, 8 F: removable hemostatic valve Side-arm with color coded 3-way stop cock
